DIGITAL BOOST CORNWALL

GROW YOUR BUSINESS THROUGH DIGITAL SKILLS

Digital Peninsula Network (DPN) is working on a new 3-year project, Digital Boost Cornwall.

What is Digital Boost Cornwall?

The project will support businesses across West Cornwall with access to free digital skills training and wage subsidy programmes to support recruitment of additional staff.

A substantial barrier to growth in businesses are the risks in taking on new employees. This project will support businesses with a thirteen-week 50% wage subsidy. (subject to eligibility)

You can expect:

- Access to a minimum of 15-hours funded digital skills training tailored to suit your business's needs
- Thirteen-week 50% wage subsidy to employ additional staff.
